Core Competencies

- Snow & Ice Management
- Emergency Storm Response & Rapid Deployment
- Route-Based Snow Operations
- Storm Planning, Monitoring & Operational Execution
- Slip-and-Fall Risk Mitigation & Liability Reduction
- Light Commercial Facility Maintenance
- Dedicated Maintenance Support Programs
- Vendor & Subcontractor Network Management

PAST PERFORMANCE

- **City of Indianapolis – Department of Public Works**
 - Managed snow operations across 344 miles of residential streets
 - Contract value: ~\$369,366 (partial season)
 - Completed storm response within required timelines (27 hrs for 4.6", 30 hrs for 11.7")
 - Improved operational efficiency, reducing 70 truck hours despite increased storm severity
- **National Emergency Deployments**
 - Deployed 30+ trucks to the Carolinas for storm response
 - Deployed 35 trucks to New Orleans to restore operations following a historic winter storm
 - Rapid mobilization capability within 24 hours
- **Commercial & Enterprise Clients (Prior Roles)**
 - Supported operations across portfolios including Walmart, Amazon, USPS, Duke Energy, Kroger, CBRE, JLL, and major healthcare systems

DIFFERENTIATORS

- Proven execution of large-scale municipal contract (344 miles of city streets)
- Certified leadership (CSP, ASM, ASCA-C) with nationally recognized expertise
- Nationwide rapid mobilization capability (deployments within 24 hours)
- Advanced operational oversight with real-time communication systems and service validation tracking
- Use of third-party meteorological forecasting for proactive storm management
- Deep expertise in premise liability and litigation support (50+ expert reports authored)
- Structured subcontractor network enabling scalable, multi-region execution

FACILITY MAINTENANCE PROGRAM

ClearPath provides a dedicated maintenance support model that functions as an outsourced, on-demand facilities team.

- 40–50 technician hours per week
- Dedicated mobile maintenance unit
- Portfolio-wide service coverage
- Dispatch coordination & work order management
- Consistent, professional on-site representation

This model reduces vendor fragmentation, improves response times, and ensures consistent facility upkeep across multiple locations.
